Co-ordinators:

Prof. B. V. Venkatarama Reddy
Department of Civil Engineering and Centre for Sustainable Technologies
Indian Institute of Science, Bangalore

Dr. Monto Mani
Centre for Sustainable Technologies
Indian Institute of Science
Bangalore

Mr. H. Hemanth Kumar
Karnataka State Council for Science and Technology (KSCST),
Indian Institute of Science, Bangalore

Workshop duration: 6 days

Course fee:
Rs. 4,000 for Indian delegates
US$ 100 for foreign delegates
(Course fee excludes lodging/guest house Charges)

Who can apply:
Graduate/Diploma in Engineering or Architecture,
Practicing Construction Professionals, Final year
Engineering or Architecture Students

Energy Efficient Buildings Workshop Series on
“Low Carbon Materials and Building Systems”

21 – 26 January 2019

Venue:
Centre for Sustainable Technologies
Indian Institute of Science
Bangalore 560 012, INDIA

Jointly organised by
Centre for Sustainable Technologies
Department of Civil Engineering, and
Karnataka State Council for Science & Technology
Indian Institute of Science
Bangalore 560 012, INDIA

Sponsored by: HT Parekh Foundation- A CSR Initiative of HDFC Limited

Natural materials are processed using energy for the manufacture of construction materials and building products. Construction industry is associated with two problems; consumption of huge quantities of unsustainably extracted mined raw materials and the associated carbon emissions. Indian construction industry is the largest in terms of volume of materials produced and is responsible for nearly 30% of green house gas (GHG) emissions. Energy in buildings comprises of embodied energy and energy for maintenance during its life cycle. Maintenance energy in buildings greatly depends upon the local climatic conditions. There is a need for reducing energy in buildings in order to contain GHG emissions. Department of Civil Engineering, Centre for Sustainable Technologies and Karnataka State Council for Science and Technology, the Indian Institute of Science are involved in developing and disseminating large number of low carbon building materials since the last three decades. More than a dozen energy efficient building technologies have been developed and disseminated. Large numbers of buildings have been built using these new materials. Such buildings are energy efficient and result in at least 50% reduction in carbon emissions. There is a demand for the knowledge on low carbon building materials and systems. The workshop is aimed at disseminating this knowledge to the architects, engineers and construction professionals focused on the promotion of green building projects.

Details of the workshop
Workshop comprises of lectures, hands-on training and demonstration of construction techniques. Broad topics covered include Energy in buildings, Green building concepts, low carbon building materials (stabilised soil blocks, rammed earth, fly ash bricks, soil-based building products, materials from solid wastes, etc.), alternative roofing systems, masonry vaults and domes, Bi-PV and climate responsive architecture. In addition, the afternoon sessions will be on hands on training and demonstration classes on the production of stabilised soil blocks, fly ash blocks and rammed earth elements, masonry bonding, masonry domes, precast elements, etc. and field visits.

Resource persons
Faculty from the Department of Civil Engineering, Centre for Sustainable Technologies, Karnataka State Council for Science and Technology, and other invited experts.

Registration form

Fourteenth Workshop under the Energy Efficient Buildings Workshop Series on “Low Carbon Materials and Building Systems”

21 – 26 January 2019

Venue: Centre for Sustainable Technologies Indian Institute of Science, Bangalore 560 012

Name:
Organisation:
Qualification:
Mailing address:
Postal code:
Telephone: Fax:
E-mail:
Previous experience:

Place: Date:

*Course fee Rs. /US$ ………... by DD/PO
No…………… drawn on……………...date……...

*Bank draft/Pay order only should be drawn in favour of “Secretary, Karnataka State Council for Science & Technology” and payable at Bangalore.

Last date for registration: 15 January, 2019 (subject to availability and participation is limited to 30)
